USER MANUAL

MS-2330

electric shaver

THIS INSTRUCTION BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION. PLEASE READ BEFORE USE AND KEEP FOR FUTURE REFERENCE.

Sincerely Thank you

Why do we shave?

Because we're preparing for something, even if we don't say it out loud. For moments that deserve the care and attention to our skin. A build of anticipation. A day that might shift into something more. A step closer to closeness.

At its heart, grooming is being open to possibility. A quiet confidence that knows if something happens, I'm already there.

And Spotmate is right there with you.

Calm skin, steady nerves. A close shave with whatever the day, night, or season might become.

For any questions or issues, please email us:

service@spotmatecare.com

Or SMS SPOTMATE to (833) 524-0498

Or Call us toll-free at 1-833-359-5467

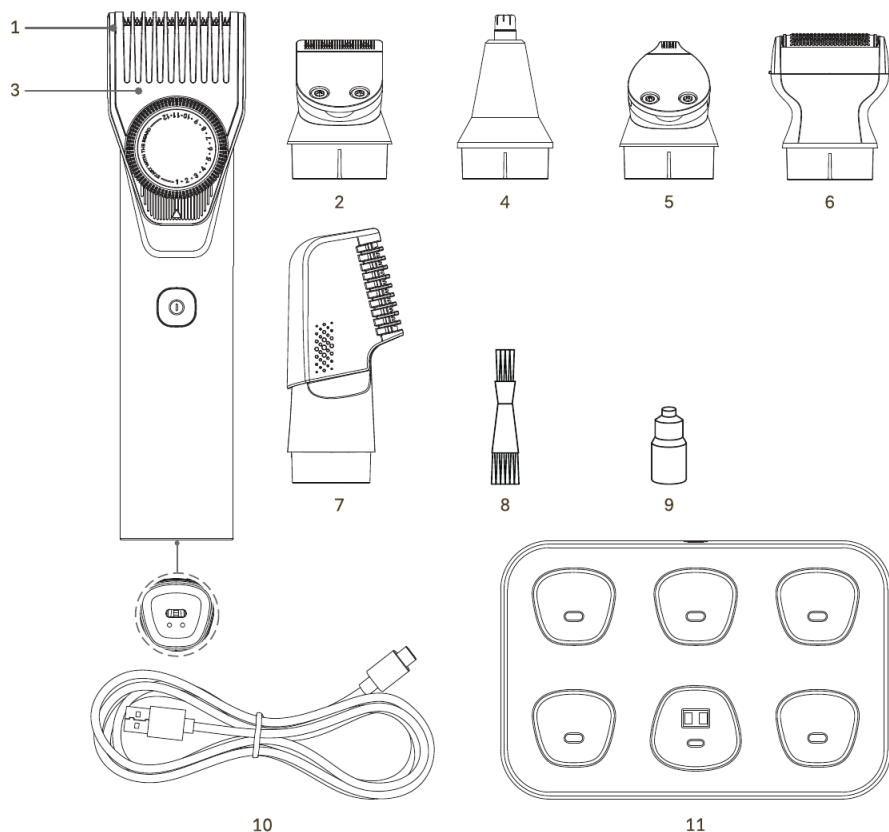

Or visit: www.manspotstore.com/warranty

We will go above and beyond to resolve any customer issue within 24 hours.

**Best Regards,
Gordon
Founder of MANSPOT**

Packaging List

1. T-Blade Extra-Wide Hair Trimmer ×1
2. U-Blade Full-Size Hair Trimmer ×1
3. Adjustable Guide Comb ×1
4. Nose & Ear Hair Trimmer ×1
5. Design Trimmer ×1
6. Foil Shaver Head ×1
7. Body Trimmer Head & Guide Comb (2 mm) ×1
8. Cleaning Brush ×1
9. Oil ×1
10. USB Cable ×1
11. Charging Stand ×1

Key Features

1. All-in-One Grooming Kit:

6 precision heads + adjustable guide comb (12 length settings: 1–12 mm)

2. Up to 7500 RPM High-Speed Motor:

High-torque performance for smooth, snag-free trimming with turbo boost

3. Up to 210 Minutes Runtime:

Type-C fast charging; full charge in 2.5 hours

4. IPX7 Waterproof:

Magnetic detachable heads, suitable for wet & dry use

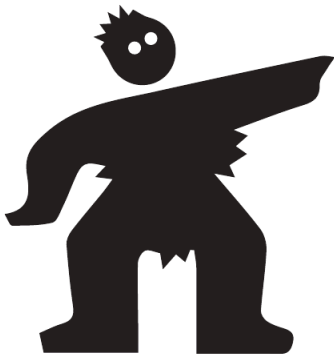

5. Digital LED Display:

3-second long-press travel lock, battery level visible

Usage Tips

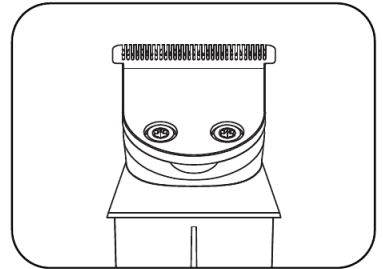

1. Always use a body guide comb when you trim sensitive areas.
2. Always comb your hair before you start trimming.
3. When using the trimmer for the first time, it is recommended to start with the guide comb at the maximum trimming length setting. This will help you get comfortable with the device and its operation before using shorter length options.
4. As hair does not grow in a uniform direction across the body, you may experiment with different trimming angles and directions—including upward, downward, and crosswise strokes. Regular practice will help you achieve the desired results.
5. Always trim with smooth, light, and steady movements. Ensure that the flat surface of the guide comb remains fully in contact with your skin at all times to avoid uneven cuts or irritation.
6. For the most reliable and clean trimming results, use the product exclusively on clean, completely dry hair. Wet hair may stick to the skin, which can interfere with smooth, even trimming.
7. If a significant amount of cut hair accumulates on the trimmer head or guide comb, be sure to remove the buildup before continuing your trim, or between uses. This will preserve the device's performance and ensure consistent, precise results every time.

Trimmer Head Functions

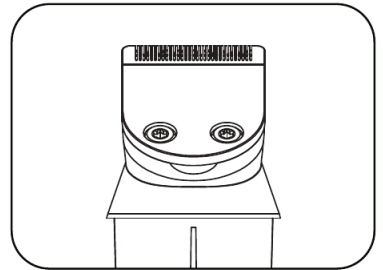

1. T-Blade Extra-Wide Hair Trimmer

- Close-to-skin trims without a guide comb (down to 1/32 in. / 0.5 mm)
- Ideal for shaping sharp, clean lines on beard, neckline, and sideburns

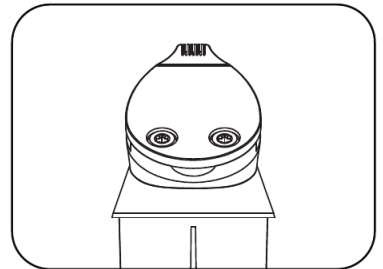

2. U-Blade Full-Size Hair Trimmer

- Trim hair very close to the skin (1/32 in. / 0.5 mm)
- Without a guide comb, it is suitable for contouring the neckline and ears

3. Design Trimmer

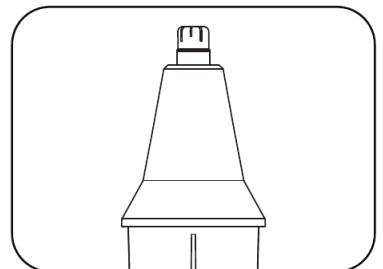

- Create fine lines and contours around your facial hairstyle
- Close trimming up to 1/32 in. / 0.5 mm

4. Nose & Ear Hair Trimmer

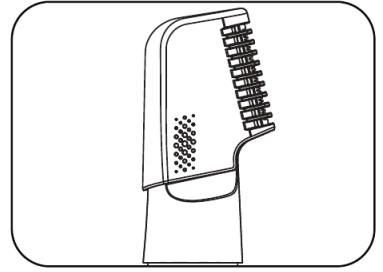

- Gently trim unwanted nose and ear hair
- Make sure nasal passages and outer ear canals are clean
- Do not insert the cutting head deeper than 3/16 in. (5 mm)
- Use slow, steady, circular motions
- Clean after each use

* This nose and ear trimmer is not intended for close shaving inside the nostrils or ear canals, but only to shorten hair to a more comfortable length. Nose and ear hair serve important protective functions and should not be completely removed.

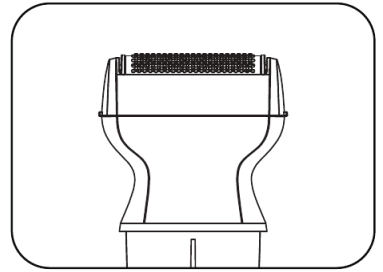

5. Body Trimmer Head

* Designed for trimming large body areas (arms, legs, etc.)

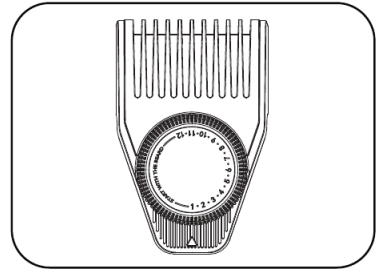

6. Foil Shaver Head

- Close facial shave (0.055 mm) for detailed areas around the beard, mustache and sideburns
- Trim longer hair first using a T-Blade or U-Blade
- This foil shaver head is designed to shave detail areas around your beard, mustache, and sideburns. It is not intended for full-face shaving. For a reliably close and comfortable full-face shave, we recommend using a dedicated full-face electric shaver.

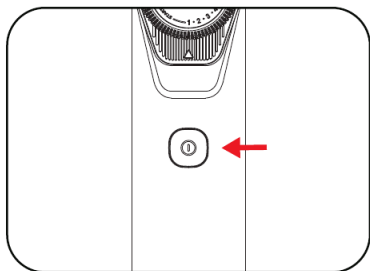

7. Adjustable Guide Comb (12 settings: 1–12 mm)

* Numbers indicate the remaining hair length after trimming

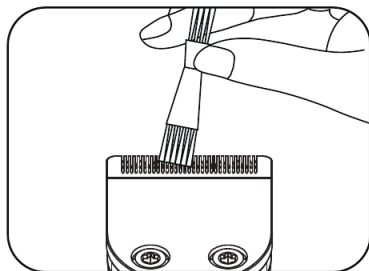

Cleaning & Maintenance

1. Turn off the trimmer.

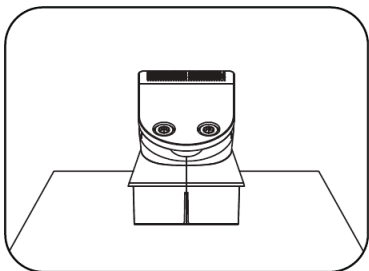

2. Use the cleaning brush to remove hair clippings.

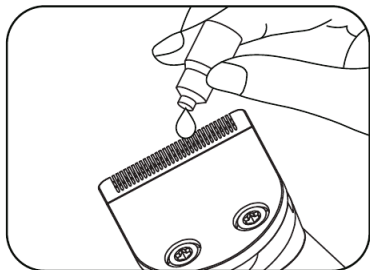

3. Rinse the trimmer head under running water.

4. Allow the head to air dry.

5. Apply a few drops of oil to the blades to maintain cutting performance.

Precautions

- Ensure children use the product under adult supervision. Store properly to prevent accidents.
- Keep the device in a dry, cool environment.
- Do not charge the device with damaged cords or adapters.
- Slight heat during use or charging is normal.
- Do not disassemble the product beyond authorized service procedures.
- Inspect the trimmer head before use for any damage.
- Use, charge, and store the machine between 32 °F (0 °C) and 104 °F (40 °C).
- Clean with a soft cloth and mild detergent; avoid alcohol, gasoline, or harsh chemicals.
- In case of abnormal smell, temperature, or sound during charging or use, unplug the device immediately, and stop using it. Contact customer service if necessary.

Product Specifications

Product Name	electric shaver
Model	MS-2330
Input Voltage	5V=1A
Battery Capacity	1200 mAh
Rated Power	5W
Rechargeable	
Made in China	

FCC Warning

FCC Warning Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Battery Warning Statement

This product contains a non-replaceable lithium-ion battery. The battery contains materials that may be hazardous to the environment.

In accordance with local regulations, this product and its battery must be disposed of separately from household waste. When the product reaches the end of its service life, fully discharge the battery and take the product to an electronic waste recycling facility for proper disposal.

Customer Service

MANSPOT - SPOTMATE'S LINE FOR MEN strives for user-friendly products for household items.

We aim not only to create a product, but also an item that is filled with care and love from us to our customers.
